Try to recreate the list with your own string!

```
List {
    Text("Laughing Fox")
    Text("Chichuahua")
    Text("Chipi Chapa Cat")
    Text("Cat Memes")
}
```

```
List {
    Text("Laughing Fox")
    Text("Chichuahua")
    Text("Chipi Chapa Cat")
    Text("Cat Memes")
}
```

What do you think the code does?
