Let's make it simpler!

From this very long code

```
List {
    VStack {
        Image("foxlaugh")
        Text("Laughing Fox")
    }

    VStack {
        Image("chihuahua")
            .resizable()
            .frame(width: 300, height: 180 )
        Text("Chichuahua")
    }

    VStack {
        Image("chipichapa")
            .resizable()
            .frame(width: 300, height: 180 )
        Text("Chipi Chapa Cat")
    }

    VStack {
        Image("catmemes")
            .resizable()
            .frame(width: 300, height: 180 )
        Text("Cat Memes")
    }
}
```
